B LABELED ACCESS DOOR

Our standard side hinged door unit is fabricated of AISI type 302 / 304 stainless steel with a standard satin finish or NO.3 directional polish. All doors have a noiseless self-closing mechanism that is spring actuated with a hydraulic check to restrict the closing speed. Our side hinged access door can be opened a full 180° giving enough space to deposit larger bags. Our doors bear a 1 1/2hr 250F. U.L. "B" label. It can be used in masonry and drywall applications. The door can be hinged left or right depending on the customers needs.

A ACCESS DOORS

Access door bearing Underwriter's Laboratories Class "B" labels are available in the same size as the side hinged intake door. All Chute Source LLC doors are fabricated of quality construction. To maintain a proper safe usage, all doors should be periodically inspected. Replacement parts for our doors can be provided direct from the factory or through our local representative. The doors may have a top hinged baffle closing off the intake throat behind them. When the door is opened the baffle closes off the opening and prevents air and entrained dust from backdrafting into the face of the user. Cylinder locks can also be provided to prevent unauthorized persons from using the door. The doors can be keyed alike or master keyed.

DOOR SIZE	DOOR WIDTH	DOOR HEIGHT	WALL OPENING
24x24	24 1/2"	24 1/2"	28 x 28
21x21	21 1/2"	21 1/2"	25 x 25
18x18	18 1/2"	18 1/2"	22 x 22
15x15	15 1/2"	15 1/2"	19 X 19
12x12	12 1/2"	12 1/2"	16 X 16
